Web Announcement 2639

Claims for Chemotherapy and Administration Related Codes Denied in Error

The following chemotherapy and administration related procedure codes 96361, 96366, 96367, 96368, 96370, 96371, 96375, 96376, 96411, 96415, 96417 and 96423 have been denying in error with error codes 6510 (Add-on code billed without paid primary within 2 days) and 6511 (Add-on code billed without paid primary) when a primary procedure code was not billed on the same date of service. Effective with claims received on or after November 23, 2021, these claims will adjudicate correctly and will no longer deny in error.

The impacted claims that denied with error codes 6510 or 6511 will be reprocessed automatically to adjudicate correctly. A future remittance advice will report the results of the reprocessed claims.

When claims are reprocessed, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and other claim denials may be received. Providers have the right to appeal denied claims, including those denied upon reprocessing. Please refer to [Medicaid Services Manual Chapter 100](#) and the [Billing Manual](#) for information concerning the claim appeal process and time frames.
